

[KYLIN-4249]-DistributedScheduler can selectively assign task nodes according to cube extra configuration

Instructions

1. add cube configuration with `kylin.cube.schedule.assigned-servers`

```
#list with hostname or ipv4
kylin.cube.schedule.assigned-servers=bjm6-0-0.os.org,10.0.0.0
```

Configuration Overwrites

7

Overview

kylin.cube.schedule.assigned-servers

bjm6-0-0.os.org,10.0.0.0

Tips

1. Cube level properties will overwrite configuration in kyllin.properties
